PROFILE

Highly motivated and detail-oriented Software Engineer with over three years of experience in web development, software design, and full-stack application development. Proficient in modern web technologies, including HTML, CSS, JavaScript, and frameworks like React, Node.js, and Django. Skilled in building scalable and user-focused solutions, with hands-on expertise in RESTful API integration, responsive design, and database management. Known for effective collaboration, problem-solving, and delivering highquality projects on time. Seeking to leverage technical expertise and innovative approaches in a dynamic remote environment to contribute to impactful projects.

WORK EXPERIENCE

Moti Engineering   2024

Software Engineer / Internship

- Collaborated with a team to design and develop an Information Management System (IMS), utilizing Python Django, Bootstrap, PostgreSQL, and JavaScript.
- Gained hands-on experience in RESTful API development, enabling seamless integration with external systems.
- Performed full-stack development tasks, including backend logic and frontend design, adhering to best practices for maintainable code
- Participated in project management activities, coordinating with cross-functional teams to ensure timely delivery of project milestones

Velocity Marketing   2024

Web Developer

- Developed and customized WordPress websites, ensuring responsive designs and seamless functionality.
- Integrated QR code technology for innovative marketing campaigns and user engagement solutions.
- Collaborated with the marketing team to align website features with strategic branding goals.
